Subject: Wolverine PFAS Plume and Former Factory Meeting - FOLLOWUP

Hi Abby,

I understand that the call went well. I have been tasked to follow up on the conversation regarding data, maps, and figures on Wolverine requested by Joan Tanaka last week. Superfund will brief Bob Kaplan, Acting Regional Administrator next week and the briefing paper is due to his office on Wednesday, Nov. 8th COB. Can you provide the information before noon tomorrow?

- We are looking to understand what is known about the nature and extent of the PFAS plume
- Any already made document you can provided (ASAP) will be greatly appreciated.
- We are looking for maps and summaries with figures like: # residential wells sampled, residential wells above standards
- How they are being address - including filters provided Point of Use and Point of Entry.
- What do we know about other landfills and dumps... we understand that a lot of the areas are just areas of concern and are not necessarily WWW dump sites.
